As an Art Detective find these images in the glass painted panels exhibited in the Museum. Spot how each image differs to that shown in the actual panel. A clue – each of the objects below have been missed out from the images above. When you find what has been missed out from each image, locate the object below and assign it to its correct place by writing the image number into the object's magnifying glass. How many of this initial  can you find in these painted glass panels and what does the initial stand for?
